By Bertha Whitridge Smith The Ohio State Journal says:

The most tender and most sympa thetic story that has been inspired by the present war is this, the auto-biography of Army, an Irish terrier. The loyalty and the sublime faith of Army in a "Tommy" even to death will move any heart.

Few Americans, however, have any familiarity with the Annapolis system. It is the purpose of Admiral Earle's book to give a clear account of the machinery which converts the raw "piebe" who enters the academy into the first edition of Pastor Vorwerk's poems there occurred a paraphral and lofty traditions of the service. We sympathize with a distinguished

friend who once remarked that when-ever he met with a certain phrase in print, his fingers itched and his flexors and extensors throbbed to "'eave a 'alf brick" at somebody. That is the way we feel on reading "Nadine Narska," because of the exasperation

Narska," because of the exasperation at seeing so much good material so ill used. Thought, art, understanding of human nature, observation of society, the ambition for truthful portrayal, all are evident. Yet there are slovenly and incorrect English, bad arrangement, lack of proportion and the unmistakable earmarks of the amateur or of carelessness or haste. In spite of glaring and painful faults, it is an impressive book. With its material used to the best advantage.

## The War and Humanity

## JAMES M.

Author of "The Evidence in the Case."

First published in November, 1916, this powerful discussion of America and the World War has made a deep impression on both sides of the Atlantic. It made history in its potent influence upon American public opinion. Selected chapters (as the burning indictment of the Cavell execution and Mr. Beck's now historic speech in London on "America and the Allies" have been circulated all over the World in the English, French, German, Spanish, Italian, Greek and Dutch languages.

"I most carnestly hope that there will be a wide circulation of Mr. Beck's 'War and Humanity.' It is the kind of a book which every self-respecting American, who loves his country, should read. I believe that its circulation throughout the whole land would have a very real effect in educating public opinion as to the duty of America in this great world crists." Extract from the Foreword by THEODORE ROOSEVELT.

Mr. Beck's volume was a classic the moment it appeared. We know of no more logical and lucid discussion of the essential facts and problems of the great war, nor any more truly, consistently and even vigorously American in its spirit.-N. Y. Tribune.

One of the most virile and convincing books that the great war has produced in any country of the world."-N. Y. Sun.

"Dignified, clear and dispassionate, a masterly analysis of fundamental factors, leavened with noble and persuasive sentiments."-London Telegraph.
